AGSI HOSTS SOBHA REALTY AT OUR ABU DHABI PLANT

Today we had a pleasure to host a VIP delegation from Sobha Realty at our Abu Dhabi Plant.

Sobha team was very excited to see our Green Plant and the sustainable processes of our operations.

The participants included senior executives from Sustainability, Procurement, Structural Engineering, Projects, and Business Strategy.

The team was welcomed by our Management, including our CCO, Deepak Bhandari, CPO, Anna Griffin, Plant Head, Mr. Noufal, and Deputy Plant Head, Mr. Aziz, followed by the tour of the plant led by Mr. Aziz, our Deputy Plant Head.

GREEN STEEL OPERATIONS AND STATE-OF-THE-ART TECHNOLOGY

The team witnessed our state-of-the-art machinery and processes that are optimized to achieve the lowest carbon footprint emissions. They walked around the biggest scrapyards in the UAE learning about scrap processing and efficiency of our operations. In the QC Lab, they've learnt about our Quality Control processes that ensure the highest possible quality of our products.

Additionally, we were proud to explain our decarbonization strategy and commitment to environmental stewardship and being the leaders in the region for Net Zero Vision.

They recognized the greenery of many trees and flowers surrounding our plant, commenting that this is a 'truly Green Plant'.

They were very impressed and thank our company for being at the forefront of decarbonization and pioneers of green steel.
